## 1 We will create a positive work environment for women

In Japan, with a falling birthrate and aging population, worker population is projected to decline. By utilizing a workforce made up of individuals without regard to values, age, gender, nationality or disability, and by respecting the individual lifestyles of each and every female employee, we are working to create an open corporate culture and positive working environment where everyone can gain a sense of fulfillment in their work.

## 2 We will leverage women's unique creative powers

Women's success in business is gaining prominence, such as with companies that utilize the perspective and creative powers of women to develop new products and services. In all business sectors, Sumitomo Forestry is striving to nurture the culture and processes that will harness women's unique creative powers and create new value.

## 3 We will spur innovation through the participation of women

Lively interaction among employees of different values, ages, gender, nationalities and other qualities leads to new ideas. Expanding work opportunities for women employees, in particular, spurs innovation in all areas, from sales and marketing to product development, business strategy and operational efficiencies.
